

Moving around our building

Don't worry, you will eventually find your way around. The school is built over three floors; Ground floor, (G) Lower ground (LG) and First floor (F). Staff are always on the corridors during lesson change over to help you find your way.

The corridors are sometimes busy, but students move sensibly between lessons and if you feel a little nervous at first, you can speak to your tutor for some more help.

As you move around the building you will pass lots of display boards which help keep you up to date with key events and changes going on around school. You will see classes enjoying independent learning and students work on display in our display cabinets.

lockers are available to help you organise everything you will need with you to help you have a good day of learning at Parris Wood.
